

# BCD WING INFLATION HOSE

The BCD Wing Inflation Hose is a low-pressure hose designed for reliable air delivery to BCD wing inflator systems. Suitable for a wide range of diving applications, it provides flexibility and ease of routing depending on diver configuration.

Available Lengths:

Long: 33 in (85 cm)

Extra Long: 40 in (100 cm)

Designed for compatibility with standard low-pressure BCD inflators, this hose offers dependable performance and durability in demanding diving environments.
