

FUSION X DIVE TORCH

Engineered for performance in the most demanding underwater environments, the Fusion-X delivers exceptional brightness, durability, and reliability for divers, water rescue teams, and watersports professionals.

Producing up to 4500 lumens, this high-powered torch cuts through low-visibility conditions with a focused 11° beam, ensuring maximum clarity and long-range visibility underwater. Built from robust 6063 aluminium and rated to depths of 100 metres (IPX8), the Fusion-X is designed to withstand harsh marine environments and intensive commercial use.

The intuitive one-button control allows easy operation even when wearing gloves, while the sealed high-capacity battery system provides extended runtimes of up to 12.5 hours. A convenient magnetic USB charging system ensures quick and hassle-free recharging without compromising the torch's waterproof integrity.

Supplied with a detachable handle and lanyard for versatile handling, the Fusion-X is the ideal lighting solution for recreational divers, rescue operations, and professional applications alike.

FEATURES

- 4500 Lumen Output – Powerful illumination for low-visibility diving
- 100m Depth Rated (IPX8) – Built for serious underwater use
- Long Runtime – Up to 12.5 hours on a single charge
- Magnetic USB Charging – Fast, sealed, and hassle-free
- Focused 11° Beam – Excellent range and visibility (up to 429m)
- Rugged Aluminium Build – Durable, corrosion-resistant construction
- Simple One-Button Control – Easy operation, even with gloves
