

RR3

INFLATABLE RESCUE SLED

Water rescue craft for use in rivers; flooded urban and coastal areas; mountains and lakes. The RR3 Rescue Sled is lightweight and portable, both inflated and deflated. It is easy to manoeuvre and can be paddled, pulled by hand or towed by a jet ski, boat or small hovercraft.

Whats Supplied With The Inflatable?

- 1x Twin Blade Paddle
- 2x Inflation Valve Fittings
- 1x HP2 Inflation Hand Pump
- 1x Storage Bag
- 1x Repair Kit & Tools

Spec Details

Overall length - 300cm
Overall width - 113cm
Internal width - 73cm
Sponson/pontoon dia. - 20cm
Floor materials - DWF
Floor thickness - 15cm
Inflatable only weight: 24kg
Gross weight - 27.5kg
Carton/packing dims. - 110*50*32cm
Chambers - 2+1
Max inlet fill (sponsons) - 0.35bar/5psi
Max inlet fill (floor) - 0.7bar/10psi
SS316 stainless steel D-rings - 4S+7M
Handles - 6+4
Max loading - 350kg
Max persons - 3+1

Inlet & relief valves

TECHNICAL DRAWINGS

WHY PVC IS THE IDEAL MATERIAL FOR RESCUE INFLATABLE CRAFT

PVC (Polyvinyl Chloride) is a top choice for rescue inflatable craft due to its:

1. Durability and Strength

Tensile strength: tough enough for rough waters and repeated use. Abrasion resistance protects against damage from rocks and debris, crucial in rescue environments.

2. Waterproof and Airtight

Prevents water absorption, maintaining buoyancy and lightweight performance, while ensuring the craft remains fully inflated.

3. Chemical and UV Resistance

Withstands exposure to saltwater, oil, and UV rays, prolonging the life of the craft in harsh conditions.

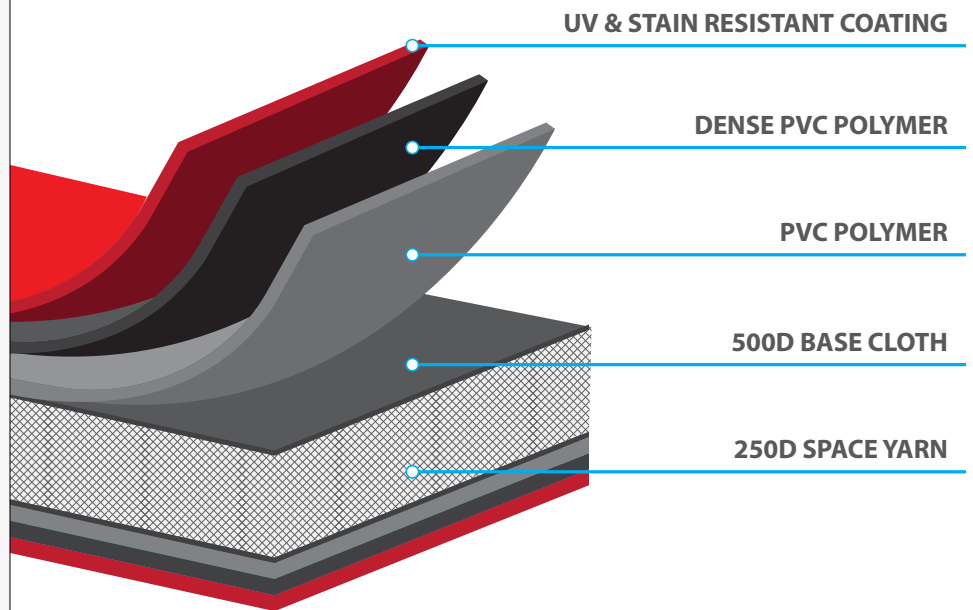

4. Lightweight for Quick Deployment

Easy to transport and deploy, making it ideal for fast response times.

5. Cost-Effective and Repairable

Affordable without sacrificing quality, and simple to repair with adhesive patches.

PVC offers a perfect balance of strength, reliability, and affordability, ensuring your team can respond quickly and effectively in emergencies.

SATURN INFLATION SYSTEM

NEED TO GET ON THE WATER FAST?

INFLATE QUICKER WITH LESS EFFORT!

Designed for use with either DIN 300bar or A-Clamp 232bar diving cylinders, the Saturn Inflation System is set at 2.5 bar outlet pressure and fitted with a boat inflation hose for use with our range of inflatables.

- Get onto the water faster
- Black 2m (80") hose
- DIN fitting (A-clamp available upon request)
- High vis yellow hose protectors on each end (95mm length)
