

VARILUX ZOOM

Varilux Zoom Torch – Precision Lighting for Extreme Environments

Engineered for professionals and serious enthusiasts, the Varilux Zoom Torch delivers powerful, adaptable illumination in the most demanding underwater and low-visibility conditions. Whether you're exploring beneath the surface, conducting water rescue operations, or working in commercial diving environments, this torch is built to perform when reliability matters most.

Its robust construction and precision zoom functionality allow you to seamlessly switch between a wide flood beam for area visibility and a focused spotlight for long-range clarity. Compact yet solid in hand, the Varilux Zoom Torch strikes the perfect balance between portability and durability, making it an essential tool for divers, rescue teams, and watersports users alike.

Designed with performance and practicality in mind, this torch ensures consistent brightness, dependable operation, and ease of use—even in challenging conditions.

FEATURES

- Easily transition from wide-angle floodlight to focused spotlight for versatile use
- Powerful output for clear visibility in low-light and underwater environments
- Designed to withstand harsh marine and professional conditions
- Measures 190 × 53.4 × 53.4 mm for a solid yet manageable grip
- Perfect for diving, water rescue operations, and commercial use
- Built for consistent performance where it matters most
- Simple controls for quick adjustments even when wearing gloves
