

VARILUX ZOOM

The Varilux Zoom delivers powerful and versatile illumination for diving and surface applications. Producing up to 3400 lumens, its adjustable zoom function enables users to switch from an 11° spotlight for long-range visibility to a 73° flood beam for wider area coverage. Constructed from rugged #6063 aluminium and depth rated to 100m (328ft), it is ideal for recreational divers, rescue teams, commercial operators and professional users requiring dependable performance in demanding environments.
